The accompanying notes are an integral part of these consolidated financial statements.

Notes to the Consolidated Financial Statements Nine months ended December 31, 2005 (Unaudited – Expressed in Canadian Dollars)

1. BASIS OF PRESENTATION AND PRINCIPLES OF CONSOLIDATION

These interim consolidated financial statements are prepared in accordance with Canadian generally accepted accounting principles. They do not include all the disclosures as required for annual financial statements under generally accepted accounting principles. However, these interim consolidated financial statements follow the same accounting policies and methods of application as the Company's most recent annual financial statements, except for the change described in note 2. These interim consolidated financial statements should be read in conjunction with the Company's annual consolidated financial statements.

Operating results for the nine month period ended December 31, 2005 are not necessarily indicative of the results that may be expected for the full year ending March 31, 2006.

2. CHANGE IN ACCOUNTING POLICY

Effective April 1, 2005, the Company adopted the Canadian Institute of Chartered Accountants ("CICA") Accounting Guideline 15, "Consolidation of Variable Interest Entities" ("AcG15") on a prospective basis. AcG15 prescribes the application of consolidation principles for entities that meet the definition of a variable interest entity ("VIE"). An enterprise holding other than a voting interest in a VIE could, subject to certain conditions, be required to consolidate the VIE if it is considered its primary beneficiary whereby it would absorb the majority of the VIE's expected losses, receive the majority of its expected residual returns, or both. The adoption of this new standard had no effect on the interim consolidated financial statements as the Company does not have any VIE's.

- (1) On July 21, 2004, the Company subscribed to a private placement in Yukon Zinc Corporation (formerly Expatriate Resources Ltd.) ("Yukon Zinc") consisting of 500,000 units for a total cost of \$125,000. Each unit consisted of one common share and one-half of one warrant. Each whole warrant is convertible into one common share of Yukon Zinc. The costs totaling \$125,000 were allocated between the common shares and warrants of Yukon Zinc based on their relative fair values at the date of issuance. The Company did not exercise the warrants, and consequently, the warrants expired unexercised on July 21, 2005.
- (2) The Sydney Resource Corporation warrants are exercisable at \$0.52 per share until February 4, 2006. Subsequent to December 31, 2005, these warrants expired unexercised.
- In November 2005, Chatworth Resources Inc. ("Chatworth") (formerly, GMD Resources Corp.) amalgamated with ComWest Capital Corp. to form ComWest Enterprise Corp. ("ComWest"). Under the amalgamation agreement, the Company's 16,667 post-consolidated Chatworth warrants (100,000 pre-consolidation) were exchanged for 12,426 ComWest warrants. Each ComWest warrant entitles the Company to acquire one additional ComWest Class "B" voting common share at \$1.207 per share until July 16, 2006.

(a) Nechako Gold Property (formerly "Bob" and "JMD" Properties)

In January 2004, the Company entered into an agreement to acquire a 100% interest in the **Nechako** mineral property. The 1,300 hectare Nechako property, located 80 kilometers west of Quesnel, was acquired by issuing a total of 200,000 common shares of the Company to two arm's length parties. Of these 200,000 common shares, 50,000 were not due to be issued until the Company reached a third party joint venture agreement or completed a total of \$250,000 in exploration expenditures on the property.

In November 2004, the Company signed an option agreement with Endurance Gold Corporation ("Endurance Gold"), an arm's length private company, whereby Endurance Gold can acquire a 60% interest in the properties by issuing in staged payments to the Company 250,000 common shares, and by incurring \$250,000 in exploration work on the property over the next three years. The agreement was conditional upon Endurance Gold becoming a publicly-listed company, a condition that Endurance fulfilled in July 2005, by becoming a publicly-listed company on the TSX Venture Exchange. In August 2005, the Company received its first payment of 50,000 common shares of Endurance Gold at a deemed price of \$0.23 per share. Accordingly, \$11,500 was credited against the acquisition cost of the property. In December 2005, Endurance Gold fulfilled the \$250,000 exploration expenditure requirement and the Company received its second payment of 200,000 common shares of Endurance Gold at a deemed price of \$0.18 per share. Accordingly, the \$36,000 was credited to the acquisition cost of the property and Endurance Gold earned its 60% interest in the property. The two arm's length parties from whom the property was acquired waived their right to the 50,000 common shares of the Company referred to above.

At the end of the option period, the Company and Endurance Gold could enter into a joint venture to develop the property with the Company holding a 40% interest and Endurance Gold holding a 60% interest. The Company has the option of participating in excess expenditures incurred by Endurance Gold above and beyond the required \$250,000 in order to maintain its 40% interest. The Company has elected not to participate in the additional expenditures and accordingly, the Company's interest in the property has been reduced to approximately 33%.

Since January 2005, Endurance Gold registered an additional 3,275 hectares of mineral claims within an area of common interest surrounding the property which now form part of the property and which are subject to the terms of the agreement with Endurance Gold.

(b) Max Properties

In January 2005, the Company entered into an agreement whereby it obtained an option to acquire a 100% interest in the 121 hectare **Homestake/Kamad** crown-granted mineral claims, located 65 kilometers northeast of Kamloops, by making staged payments totaling \$135,000 and issuing 200,000 common shares of the Company over a period of 2 years, of which \$60,000 has been paid and 50,000 common shares have been issued to June 30, 2005. The property is subject to a 2% NSR which can be purchased by the Company for \$1 million.

In December 2004, the Company entered into a letter agreement with Eagle Plains Resources Ltd. ("Eagle Plains") to obtain an option to earn a 60% joint venture interest with Eagle Plains to develop the 5,075 hectare **Acacia** property, which is contiguous with and surrounds the Homestake/Kamad property. The Company can earn its 60% interest by making staged payments totaling \$125,000 (of which \$10,000 was paid in December 2004 and \$15,000 was paid in April 2005), issuances of 350,000 common shares of the Company (of which 25,000 were issued in May 2005), and by expending \$2,500,000 in exploration over the ensuing four years. The Company may increase its interest to 75% by completing a feasibility study. A definitive agreement was entered into in April 2005.

As the results of exploration work on the Max property were not encouraging, the Company has given notice of termination of the option agreement on the Homestake/Kamad property in December 2005 and is reviewing its commitments under the option agreement on the Acacia property.

(c) Witch Properties

In September 2004, the Company acquired a 100% interest in the **Witch** porphyry gold-copper property, located in the Witch Lake/Chuchi Lake region, approximately 80 kilometers north-northwest of Fort St. James, for a cash payment of \$10,000. At that time, the property comprised approximately 4,600 hectares and the Company subsequently, staked an additional 1,750 hectares contiguous to the property. During the period from September 2004 to January 2005, the Company staked and registered an additional 67,961 hectares in the Witch Lake region.

During the quarter ended December 31, 2005, 22,300 hectares of these claims were allowed to lapse as a review of the existing information on the property did not warrant further exploration work by the Company. Accordingly, the acquisition costs were written down.
